3.6 SAP Business Network, project44 Rail Visibility Add-On

Note: No standard integration into SAP Business Network for Logistics available; custom integrations provided by project44, with proper implementation project scoping exercise.

Feature	Description
Shipment tracking initiation	• Initiate tracking with container number or rail car ID.
Real-time location tracking	• Receive container / rail car location stops and times. • Tracking updates are limited to one call every 4 hours.

4 GEOGRAPHIC AND CARRIER NETWORK AVAILABILITY

The table below shows the add-on availability by mode - for the geographic regions of North America and Europe. Existing carrier network availability varies, depending on the specific customer carrier relationships and connectivity needs, as well as geography. project44 covers the carrier onboarding services for shipper customers, also for new carriers not already available in the project44's Advanced Visibility Platform, as part of the respective SAP Business Network, project44 add-on service.

Mode	Add-on Features Availability*
FTL	North America Europe
LTL	North America Europe
Ocean	Global
Rail *(custom implementation)*	North America
Air	Global
Parcel	North America Europe APJ *(custom implementation)*

* *Carrier analysis required to determine network coverage within specific countries*
